Gentle formulas that combine naturalness and pleasure

- SULFATE FREE** and **SILICONE FREE** formulas
- 4 unique and addictive fragrances with : natural Monoi oil; organic Coconut extract; with organic Papaya extract; with organic Hibiscus extract

To limit irritations, we have developed a formula based on surfactants of natural origin known for their softness.

Silicones are very difficult to biodegrade and toxic to aquatic organisms. So we chose to remove them completely from the list of ingredients.

A generous and practical 400ml format

- Identity serrated bottle of the brand, which allows a good grip of the product
- Bottle that can turn up side down, thanks to the flat cap and avoids a loss of product for the consumer
- Attractive price-performance ratio.
